ANANT INUSION

Build your very own ant world at home and you'll be able to watch every move these little critters make.

Get ready for some serious fun with Ant-o Sphere. Once you put together the cool, spaceship-like pods, you're ready to go. All you need to do is get out into the garden and catch yourself some ants to live there. Add water, soil and some plants, then sit back and watch the action unfold.

ANT-0-SPHERE TIPS FROM DR F-ANT-ASTIC

- Fill your Ant-o Sphere with different types of things, such as moss, different plants; sand or bark.
- The Ant-O Sphere is based on real ant leaf cutter colonies. The tunnels are exactly the same size as real ant tunnels.
- Not sure what to feed your and army? Fill a pod with a variety of foods such as apple, carrot or broccoli. Count how many pieces of each you put in, then in a few days, see what's left. Whatever is missing is what your ants like to most eat. Try the same experiment with different plants to discover their fovourites.

An Ant-o-Sphere is the perfect Xmas present as it's educational as well as fun!

HOW TO DRAW

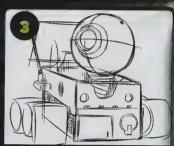

Planet 51 is in our orbit. Sketch a super bot and a seven-year-old!

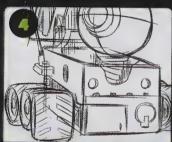

RUFF RUFF This guy acts like a doa but looks like a space exploration robot. Draw his rough (or is that ruff?!) outline using squares, circles and lines

HEAD-CAM Rover needs to see where he's going, so draw the lens and different sized circles on his webcarn head, then add details to his neck.

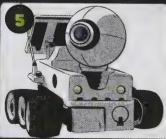

THE NUTS AND BOLTS Rover's body is a hi-tech box that has robot headlights, vents, an undercarriage antenna and shock absorbers.

DOIN' WHEELIES Add detail to Rover's wheels, so they look like they can handle all-terrain. They've got monster truck treads and hubcaps

OFF THE CHAIN! Go over the main pencil lines with a pen. Let the pen dry rub out the pencil and add some grey shading and black to his tyres. Now Rover's ready to roam Planet 511

Greetings, Earthling. Your Plan

Welcome To Planet 51

It's a place that is pretty much like Earth (if you jumped into a time machine and landed in the 1950sl We hope you enjoy your stay and are entertained when Captain Chuck Baker lands on Planet 51 and the little green locals think he's an alien invader. Hah! Can't they see he's HUMAN???!! Umm, no The astronaut 'extraterrestrial' is in galacticsized strife

Local Nuisances

Life on Planet 51 is hunky-dory, as long as you're green. If you're an American in a big white spacesuit (aka ALIEN!!!) then watch out for Professor Kipple, the brain collector, and General Grawl, the alien exterminator!

SITOR'S GUIDE

Activities & Attractions

L Visit the Alien Invaders Space Museum! Just make sure you're a visitor, not an exhibit.

2. Head downtown and drive a hover car (but don't fly into the path of a tank that attacks aliens for fun).

3. Savour suburban flavour - Galactic Goo tastes gooood. Hot coals pretending to be meat patties don't!

4. Don't forget to go home! Find Chuck's command module within 74 hours for a one-way trip back to Earth.

OLD DOGS. NEW TRICKS Double trouble ahead in old Dogs!

Dan and Charlie aren't good with kids. Charlie's all about making business deals and Dan is a 'monster.' Not the kind that eats people for breakfast, more the kind that (accidentally) kicks a soccer ball at a kid's head! But Dan just found out he's a dad and now he's gotta show his seven-year-old twins a good time. Give the guy some room - he needs it!

CRUNCH TIME

A great way to spend time with your kids is at camp, wearing a Scout uniform Unfortunately, Dan, Charlie and camp don't mix. Some guy calls Dan an "old woman" and they get hammered in Ultimate Frisbee. Ouch.

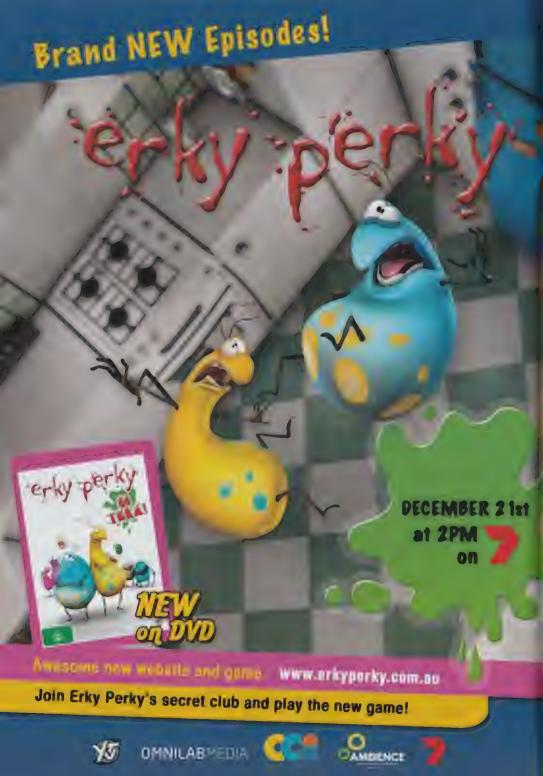

Most people visit the zoo when it's open. But when the twins get stuck inside, Dan, Charlie and their mate Ralph have to break in... to a gorilla enclosure! Psst - don't look the ape in the eye, and if he wants you to sing a schmaltzy song - SING!!! This guy makes King Kong look relaxed.

GOLF GOOFS

Tiger Woods is a golf star. Dan is a golf meteorite that's crashed and burned. When the twins mix up his medication, Dan's eyesight goes weird and he bangs into his car, faceplants a stranger and hits Ralph in the cookies with a golf ball Umm .. ocoops ..

THE K-Z REPORT

WELCOME TO THE WORLD'S WACKIEST NEWZ STATION! HERE ARE THE HOTTEST HEADLINES FROM AROUND THE GLOBE...

Just in from New Zealand, there are reports of a Burmese cat clinaing to the underside of a car for a fur-raising 100km trip! With these skills, the kitty could star in a Hollywood-style, high-speed car chase. I thought it was just dogs that chased cars?

ALSKY RUMAR

A Chinese man's morning exercise routine has left passers by stunned. The 55-year-old jogs on the handrails of a 1km long suspension bridge. The round rails of the Qingchuan Bridge are only 10cm in diameter, so that's one extreme balance beam! Don't try this at home, viewers (unless your home is the circus).

INPSTARIOUS 1111115413:1

A strange creature has been spotted in Cameron Lake on Vancouver Island, in Canada. And now the British Columbia Scientific Cryptozoology Club has been called in to investigate. The humongous 'thing' was spied amongst a group of fish. But what's the go?! Is it a mega fish, gigantic eel or a slithering serpent? Sounds like a case for The Secret Saturdays!

Guinness World Records have recorded the Biggest Female Burp. Jodie Parks from the US achieved an impressive turbo belch of 104.75 decibels, which is louder than a drill! The sound was recorded from 2.5m away - that's some serious aut-busting action!

ICE COOL CHRISS

Deck the halls with dinosaurs and Diego — it's an *Ice Age 3* Christmas!

How To Make An Ice Age 3 Christmas

Mix up some funny fuzzballs with a whole lotta ice. Then crack open a secret underground world and drop your fave *Ice Age* characters into dino-sized trouble! Throw in some nuts for Scrat and Scratte, some dinosaur eggs for Sid and lotsa LOL moments. Then sprinkle these Chrissy tips over everything and serve up the silliness!

BUCK's Christmas advice is...

That of all everyone must brien to Buck And Secondly - east driek and be Harry Or Suciel Or Janey?

Don't use MANNY as your party planner! The Scrooge of Chrissy celebrations says...

"Party? That sounds dangerous. And loud. And messy. Nope. No parties here."

If you get the same Christmas presents as SID, take the hint (even though he didn't)...

"Manny gave me soap... And Diego gave me a toothbrush... And Ellie gave me deodorant! What's up with that? I mean what's the use? I smell good, don't I? Sid, au naturale, baby!"

THE NEW POKÉMON GAME - POKÉMON MY DUNGEON: EXPLORERS OF SKY - IS ROCKI

The deets on Pokemon Mystery Dungeon: Explorers Of Sky, the follow-up to the awesome Explorers Of Time and Explorers Darkness games, were shrouded a secrecy before its release. But no we've finally got our hands on the unreal DSI and DS game. So with the verdict? It's one of the best Pokémon games ever that's what!

POKÉ MAD

explorers of sky has a new story-line but it weaves in with the stories of both Time and Darkness. There are some pretty exciting changes too, like the fact that there are more hero and partner Pokemon, the game has more wireless capabilities, and dungeon layouts actually 'change' during the game. We don't want to spoil the story for you, but as the Pokemon.

Company promised, Explorers
Of Sky reveals an "unexpected
truth about the future." Oooh!
At the start of the game you're
hit with a series of questions
and your Pokemon is allocated
to you depending on your
answers. You then choose
another Pokemon to partner
with – and Riolu, Vulpix,
Shaymin, Shinx, Eevee and
Phanpy are all available for the
very first time!

All up, there are 21 hero and partner Pokemon in the game. During the very first stages, it's just you and your chosen partner, but more Pokémon can be recruited as you work your way further through the game. There are 490 Pokémon that you'll come across, including the super-new one, Shaymin. Another sweet feature of the game is that the dungeon layouts - including

the Items inside -actually change whenever you enter them. That makes Explorers of Sky conof the most replayable Pokenson games ever, because you get a new experience every time you here all exploring. On top of that, it is a really deep story-line through its Special Episodes,' and it is the most 'connectable' Paternan game, with a bunch of new wireless options

IT'S THE BATTLE TO END ALL BATTLES! THE NEW BEN 10 ALIEN FORCE GAME THROWS YOU INTO BEN'S SHOES AS HE TAKES ON HIS BIGGEST ENEMY.

Ben 10 Alien Force: Vilgax Attacks is coming out on Wij. DS, Xbox 360. PSP and PS2 at different dates throughout November and we're totally pumped. The game lets you take control of Ben, and all 10 of his alien superheroes, against hordes of enemies - led of course by Vilgax himself! A puzzle-packed platformadventure, the Vilgax Attacks story fits neatly into the rest of the Alien Force

universe because it was watten by the same writers that created the TV show. The story-line is that Vilgax has been up to no good recruiting the most dangerous allens in the universe, as he plots to destroy Ben. And these armier of henchmen are ultra keen con winning territory within the galaxy by ruthlessly launching attacks on one planet at a tinia.

LEGO ROCK BAND

COMING TO: Wiis DS, PS3, XBOX 360

Gameplay wise, LEGO Rock Band is like Rock Band or Cuitar Hero – only blocky. There are some cool new additions though, like the high level of customisation (including band members, instruments, roadies and managers), the unlockable vehicles (yep, vehicles... in a music game!) and the collectable LEGO studs. The other good news is that it's compatible with most RB and GH peripherals, so it's

perfect if you're hungry for some new music too. K-Zone had awesome fun Jamming in the Rock Power Challenges, where we had to do stuff like rocking out to defeat a giant octopus and summon a storm to take down a skyscraper. The full track list is long (all up there are 23 tracks) but our faves are Good Charlotte's 'Girls & Boys' and 'I Want You Back' by The Jackson 5.

THE LEGEND OF ZELDA: SPIRIT TRAGKS

COMING TO: DS

We've checked out three early levels of Spirit Tracks and it's looking amazing. The stylus controls are similar to other DS Zelda games (pointing and dragging to move, tapping to attack and circles for spin attacks), but thankfully there's a lot of new stuff in the works. Link is now able to control a Phantom Knight, and

because he's huge, is able to do stuff like carry Link across lava sections. The boss battle we've seen is against a giant beetle – and blowing into the microphone is still one of the key ways to use wind against more powerful enemies. We'll have more details on Link's new quest soon!

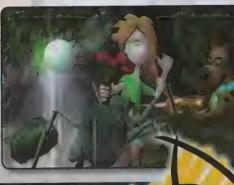

SCOOBY-DOO!: FIRST FRIGHTS

With more action than other Scooby games before it. First Frights has four main mysteries to solve and actually feels a little like the LEGO adventure games. Each character has their own unique abilities and the main trick is to switch to the best character at the right time. Crawling, climbing and grappling hooks are some of the main ways used to get around level obstacles and because it supports co-op teaming up with someone makes the action - especially the battle sections - more satisfying. First Frights is a pretty cruisy game to get through, but finding all the game's secrets managed to keep us busy for hours.

DRAWN TO LIFE:

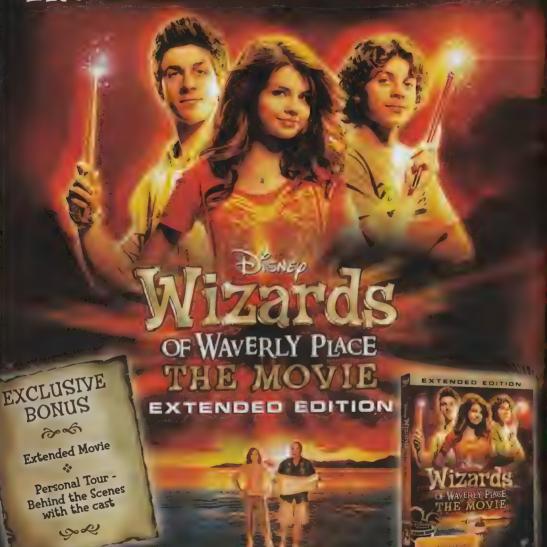

This is a wicked platformer that really gets your creative juices flowing. Fans of the original will be stoked with some of the new stuff in the sequel, like the ability to draw platforms midair, on the fly. In fact, it reminded us of one of the coolest free iPhone and iPod Touch apps out there, Trace. The new 'red box puzzles' are also

excellent fun. Using the in-game gravity, the trick is to come up with weird solutions to build things like temporary bridges across gaps, so you're able to get across. Drawing options don't end there either. The game's currency lets you buy new drawing options that allow for more variety in each creation. Warning: plenty of thinking required!

Even More Magic On The Extended Edition DVD!

Available on 16 December

METROID PRIME: TRILOGY

This game is a total score because *Trilogy* is actually three games in one. Each game is from the classic *Metroid Prime* series and each one is outstanding. *Metroid Prime*, *Metroid Prime* 2 *Echoes* and *Metroid Prime* 3 *Corruption* have all been squeezed onto the one disc, and it's a mammoth effort just to play through one. We've let ourselves get

lost in the Metroid Prime universe and while it's kind of a scary place, it's also one of the coolest game worlds ever created. Samus Aran, the star bounty hunter is nothing short of awesome and the plot surrounding the Galactic Foundation and the Space Pirates is brilliant, especially if you're into sci-fi.

Note: This game is rated M and is for older K-Zoners.

it makes the game far more enjoyable than straight up single-player mode. The best part is the game's tools, with giant forks, super long boxing gloves and a heat gun, just for starters. Fans of the movie will definitely eat it up!

In it, the winner is basically the last man standing and the idea is to knock your opponents out of the ring. The squad really is super too: Hulk, Wolverine, Thor, Dr. Doom, Magneto and Iron Man are just some of the playable characters.
